VENTURES & OPERATING

Crowwd — Fintech Platform (~20,000 users)

New Delhi, India (Remote)

Founder's Office Intern, Part-Time

May 2025 – May 2026

- ◇ Reported directly to the Founder & CEO across growth, strategy, and business development; produced the competitive and market research behind founder-level decisions.
- ◇ Launched and ran Arthavaad, a multi-city monthly speaker series, owning outreach, brand partnerships, and execution end-to-end.

HDFC Bank — Wealth Management, HNI Division

India

Wealth Management Intern (Summer)

Jun 2025 – Aug 2025

- ◇ Conducted investment research under the Head of Wealth Management, analyzing equities, mutual funds, and products feeding High-Net-Worth Individual portfolio reviews.

Project Nidaan — Health Access Field Study

Bengaluru, India

Research Coordinator · Medication access among gig-economy workers

May 2022 – Aug 2024

- ◇ Ran a primary-data study of 50+ field interviews mapping medication-access barriers among delivery riders; owned coding, cleaning, and analysis end-to-end.
- ◇ Coordinated distribution partnerships with Zomato and Swiggy to reach riders outside the formal health system.

Juno-AI — Healthcare Access Platform

Bengaluru, India

Founder · Health information and navigation platform, 10,000+ rural users

Jun 2019 – Jul 2024

- ◇ Founded at 14 and scaled to 10,000+ rural users, connecting patients with doctors, pharmacies, and booking across underserved communities; published the underlying research.
- ◇ Negotiated partnerships with four healthcare organizations, driving 180% user growth within 12 months.

INDEPENDENT PROJECTS & RESEARCH

StrayPaw — Community Animal Health Platform

2025 – 2026

- ◇ Founded a stray-dog tracking and care-coordination platform in India; 50+ dogs tracked with vaccination and sterilization status, giving feeders and NGOs proof-of-status under ABC Rules 2023.
- ◇ Led NGO and feeder-network outreach, turning informal caretaker practice into a structured record.

Forecast Ledger & Investment Memo Series

2025 – 2026

- ◇ Published a public ledger of 15 dated forecasts, each with a stated prior and resolution date, scored by Brier score — 0.134 average vs. 0.25 for chance, 75% hit rate.
- ◇ Authored venture-style theses on Indian healthtech and fintech companies with explicit, scored probability estimates.
- ◇ **India HealthTech Market Map (2025):** structured 50+ Indian healthtech organizations across 8 sectors into a published ecosystem landscape analyzing market trends, funding, and access gaps.

UNIVERSITY RESEARCH & CLINICAL

- ◇ **Apodaca Lab, Pitt School of Medicine — Research Assistant** (Jan – Dec 2025): maintained cell cultures and organoid models for epithelial transport studies; contributed figures toward lab publications and grants.
- ◇ **UPMC Emergency Medicine — Research Assistant** (Aug – Dec 2024): abstracted and coded patient data into REDCap for retrospective trauma studies.
- ◇ **Max Hospital — Clinical shadowing**, Emergency and Internal Medicine (8+ months).
